

COMMUNITY PARTNER

As a Community Partner, your partnership directly supports LGBTQ+ students at SPSCC through targeted mini grants that support tuition, basic needs, and tools & supplies. These dollars go directly to helping students. No event costs come out of our partnerships.

Your support helps keep SPSCC a safe, affirming space where students can thrive, no matter their background or identity. In return, your organization is recognized as a visible ally and champion for equity in education. Partner with us to uplift LGBTQ+ students and invest in a more inclusive future.

\$5,000 - Community Visionary

Benefits include:

The first four bullets from above +

6 Tickets to the event

Dinner with John Doan & David Marks

MINI GRANT PARTNER

Our Mini Grants provide a crucial safety net for students facing unforeseen financial crises. Unlike traditional scholarships, these flexible funds directly address immediate needs, covering both college-related costs and essential living expenses. From unexpected medical bills to sudden housing challenges or vital car repairs, our Mini Grants ensure that financial emergencies don't derail a student's academic journey, allowing them to stay enrolled and focused on their education.

At just \$500, the Mini Grant Partner level is an accessible and impactful way to support our LGBTQ+ Fund. This sponsorship tier is perfect for small businesses or organizations that want to make a difference without stretching their budget. Many of our current mini grant partners have expressed how meaningful it feels to be part of such an important cause—without the pressure of a high price tag. It's a great opportunity to show your support, gain visibility, and join a cause committed to equity and inclusion.

Each mini-grant of \$500 makes a tangible difference. Imagine the amplified impact of two or more mini-grants! We invite you to consider doubling or tripling your contribution to unlock even greater potential.

MINI GRANT PARTNER RECOGNITION

- Logo placement on our event website & promotional materials.
- Recognition on the SPSCC social media
- Acknowledgement during the event.
- Your logo displayed on event signage and banners.

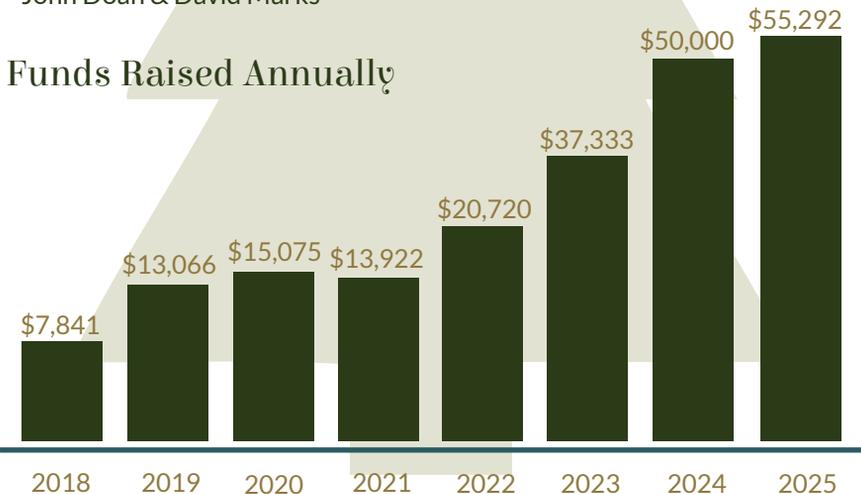

ABOUT BWP

Entertaining with a purpose has long been a passion for us. In 2018, we partnered with South Puget Sound Community College and started Brunch with a Purpose. This annual brunch, held the first Saturday in December, supports the LGBTQ+ Student Success Fund. To date these events have raised over \$200,000! These funds directly support LGBTQ+ students with scholarships and emergency grants.

Supporting the College's LGBTQ+ students is both an investment in equity and in our shared economic future. When we ensure these students can complete their education, we help ensure they transition successfully into the workforce. At a time when our local economy depends on a skilled, educated talent pipeline, removing barriers to student success helps meet critical workforce needs. By supporting LGBTQ+ students, we strengthen graduation rates, expand our pool of qualified professionals, and foster diverse perspectives that drive innovation and growth in our community.

The scholarships and emergency grants are managed and awarded throughout the year by the SPSCC Foundation.

COMMUNITY PARTNER

Student Testimonial

During this quarter I had a medical emergency which prevented me from working over a month resulting in my current financial crisis.

I notified my school and professors and ask if I could still continue my studies even though I was in the hospital for three weeks. Fortunate enough, my professors worked with me during this whole ordeal and now I received the extra help I needed to continue my education.

EMERGENCY TUITION RECIPIENT

MINI GRANT PARTNER

Student Testimonial

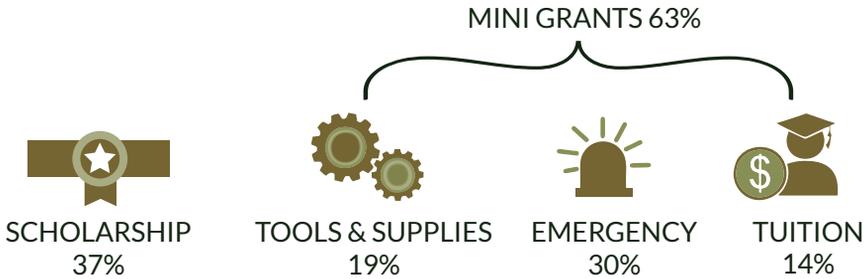

My ultimate goal is to be able to comfortably study without worrying about costs and other aspects that are detrimental to academic performance.

I do not have the financial backing of my parents, and I in fact, I must send my Mum whatever money I can spare so that she may also have access to emergency medical care and basic living materials such as groceries back in Mexico.

ABOUT BWP

ANNUAL impact

“It is critically important for LGBTQ+ students to have community support to help them achieve their educational and career goals because many of them lack family support to help them.”

Dr. Tim Stokes, SPSCC President
